

IDENTIFICATION

Product Identifier: VISIONE WINDSCREEN ADDITIVE

Product Code: FL1111

Recommended use of chemical and restrictions on use: VISIONE WINDSCREEN ADDITIVE

HAZARD IDENTIFICATION

GHS Classification: This product is classified as hazardous under the Globally Harmonised System (GHS) and Australian Work Health and Safety regulations.

- Eye irritation Category: 2A

Pictogram: Exclamation Mark

Signal Word (s) **WARNING**

Hazard Statement: Causes serious eye irritation.

General Statement: Keep out of reach of children. Read label before use.

Safety Directions: Wash hands and skin thoroughly after use. Wear eye protection/face protection.

FIRST AID:

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention. Eye contact may result in irritation, lacrimation, pain, redness, conjunctivitis.

INGESTION: Do not induce vomiting. Rinse the mouth thoroughly with water. Provide water to drink. Seek medical attention immediately. Ingestion may result in nausea, vomiting.

INHALATION: Remove to fresh air away from exposure - avoid becoming a casualty. Seek medical advice (e.g. doctor) Not an inhalation hazard.

ADVICE TO DOCTOR: Treat symptomatically. Show this SDS to the medical practitioner.

FIRST AID MEASURE: For advice, contact a Poisons Information Centre (Phone eg. Australia 131 126; New Zealand 0 800 764 766) or a doctor.

SKIN CONTACT: Immediately wash contaminated skin with plenty of soap and water. Remove contaminated clothing and wash before re-use. Seek medical advice (e.g. doctor) if irritation, burning or redness persists.

STORAGE & DISPOSAL: Dispose of contents in accordance with local regulations.

INGREDIENTS

NAME	CAS NUMBER	PROPORTION
Ingredients determined to be nonhazardous at concentrations present.	various	to 100 % w/w

FIRE-FIGHTING MEASURES

Fire Hazard: Non-flammable liquid. However, on evaporation of the aqueous component, the residual material may burn.

Extinguishing Media: Use an extinguishing media suitable for surrounding fires.

Firefighting: Keep containers exposed to extreme heat cool with water spray. Fire fighters to wear self-contained breathing apparatus if risk of exposure to products of combustion or decomposition.

ACCIDENTAL RELEASE MEASURES

Containment: Avoid direct contact with the spilled material. If safe, stop the leak at its source. Isolate the area and keep out anyone who isn't trained or protected. Use appropriate barriers (e.g. sand, earth) to prevent the material from spreading.

Cleanup: Use appropriate barriers (e.g. sand, earth) to prevent the material from spreading. Block access to waterways to avoid environmental contamination.

Minor Spills: Clean up immediately. Don't touch with bare skin or get in eyes. Wear protective gear. For small spills (less than one drum): Use tools to transfer into a sealed, labelled container. Let leftover liquid evaporate or absorb with suitable material (like sand). Dispose of safely.

Major Spills: Prevent the spill from entering drains or waterways. Wear protective gear and increase ventilation. Since the product is water-based, avoid contact with electrical equipment to prevent short-circuits. Contain the spill, if possible, use absorbent material to soak it up, and place

the waste in a labelled container. Do not dilute the product. Dispose of waste according to local regulations. If the spill reaches sewers or waterways, notify local authorities.

HANDLING AND STORAGE

Handling: Wear appropriate protective clothing when exposure is possible. Use in well-ventilated area. Do not eat, drink, or smoke while handling the product. Keep containers tightly closed and handle with care when not in use. Wash hands thoroughly after use. Store in accordance to manufactures instructions.

Storage: Store in original containers. Store in a cool, dry, well-ventilated area out of direct sunlight. Store in approved cupboards or storage container.

EXPOSURE CONTROLS & PERSONAL PROTECTION

Occupational exposure limit values: There are no specific exposure limits set for the product itself.

Appropriate Engineering Controls: Use only in well-ventilated areas. Keep work areas clean and avoid unnecessary exposure.

Personal Protective Equipment: Not required for normal use. When handling large amounts use OVERALLS, SAFETY SHOES, SAFETY GLASSES/contact lenses, GLOVES.

STABILITY & REACTIVITY

The product is stable under normal temperatures and pressure. Avoid exposing it to extreme heat or direct sunlight. Product can decompose on combustion to form Carbon Monoxide, Carbon Dioxide, and other possibly toxic gases and vapours.

TOXICOLOGICAL INFORMATION

When used as directed, the product is not expected to cause harmful health effects. It's generally safe to inhale and touch when properly diluted. However, prolonged skin contact with the concentrated product may cause irritation, including redness, itching, or swelling. Eye contact with the concentrate can lead to stinging, blurring, and tearing. Swallowing the product may

cause nausea and vomiting. There are no known long-term health risks, and the product is not considered toxic, carcinogenic, or a sensitizer. It's also not expected to affect reproduction, cause genetic mutations, or harm organs through exposure.

ECOLOGICAL INFORMATION

The concentrated product is harmful to aquatic life, but when diluted for use (1:100 rinse), it is not considered hazardous.

Acute Aquatic Toxicity (Calculated) LC50: 30 - 33 mg/L. Acute Aquatic Toxicity Category 3 - Harmful to aquatic life. Note 10. LC50 >10 mg/L but < 100mg/L.

Not harmful to aquatic life. Acute Aquatic Toxicity NOT HAZARDOUS (LC50 > 100mg/L). Acute Aquatic Toxicity (Calculated) LC50: 3000 - 3300 mg/L.

It is biodegradable and does not build up in organisms. The product can move easily through soil and may reach water systems, so it should not be discharged into waterways. Other environmental effects are not known.

DISPOSAL INFORMATION

Dispose of waste according to applicable local and national regulations. Do not allow into drains or watercourses or dispose of where ground or surface waters may be affected. Wastes including emptied containers are controlled wastes and should be disposed of in accordance with all applicable local and national regulations.

The information contained herein is subject to change without notification. Typical properties may vary slightly.
